Undercounter fridge
Illuminated cash counter
Black & white tiles
40 amp panel

*Pre-fab. Made in Thailand.
Sets up in 1 hr.*

Our new Dream Cones kiosk is made in Thailand and shipped to you in a container. It requires 15 s.m. of floor space and seats four but with an extra 3 s.m. you can have 3 tables which add 12 more seats to the setup.

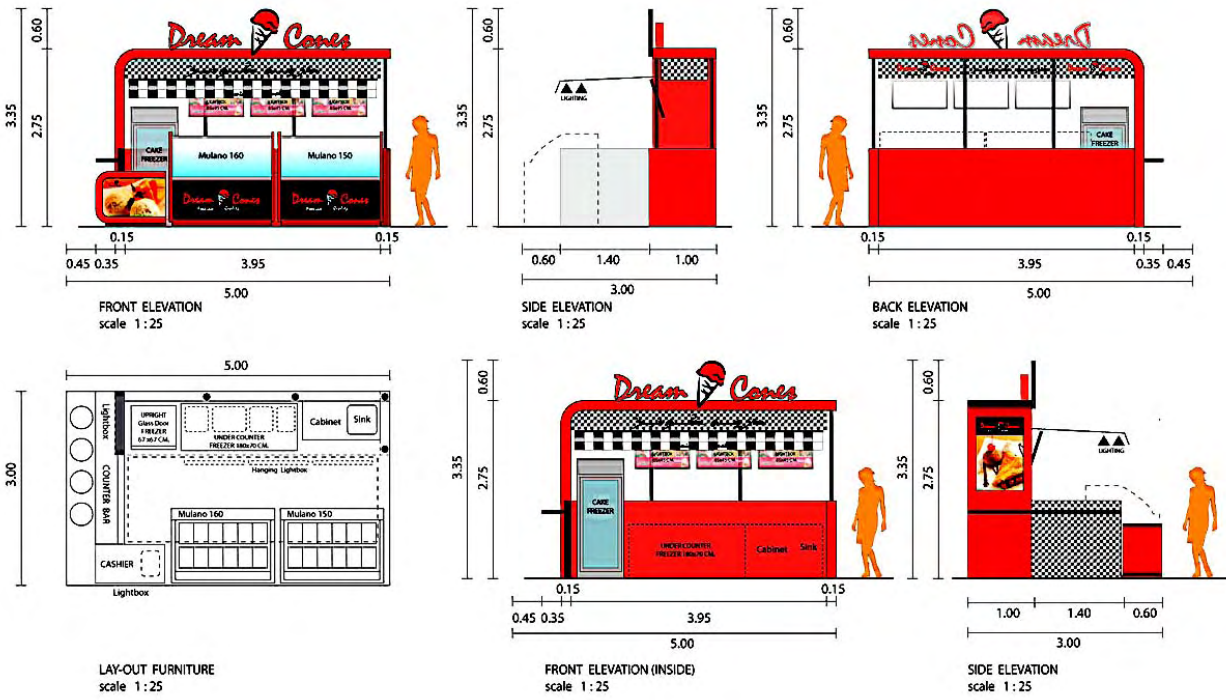

The kiosk is designed to offer a considerable variety of products:

- Ice cream
- Ice cream cakes & rolls
- Pastry, cakes, cookies
- Custards, fraps
- Sandwiches
- Hot Sandwiches
- Salads
- Offsite prepared foods:
 - Spaghetti
 - Sloppy Joes
 - Stews
- Slush drinks
- Soft Drinks & shakes
- Espresso/coffee/tea

The kiosk does not include the machinery but does include the signs, light boxes, graphics & menus, cash counter, counter & chairs.

The recommended minimum machinery/ equipment is shown above. By eliminating the crepe machine sufficient space becomes available for a panetta machine to toast sandwiches and a microwave to heat food made offsite. Additional equipment might include a blender to make milk shakes. An optional wall cabinet can be added above the rear counter for storage.

The cone maker requires a good-quality mixer to make the dough. The sink can be connected to water and drain or a 5 gal. tank can be placed beneath it to be emptied elsewhere. There are a variety of different display cases available from both China and Italy. The basic kiosk cost is €9,000 (Euro). In the same container we would normally ship the under-counter fridge, cone maker, upright freezer and ingredients. The display freezer & fridge and ice cream machines are shipped separately from Italy and/or China.

Construction takes about a month. Normally shipping takes 3-4 weeks.
